## **ALLOWANCE**

After careful search and reconsideration in view of Applicant's amendment and Remarks on pages 8-12 filed on March 6, 2007, examiner agrees with Applicant's argument on page 11.

In view of the amendment of the limitation

the impedance-matched conductors are coaxial lines with an internal conductor that is connected in a reflection-free manner to the impedance-matched conducting tracks, and with a plurality of feedthrough contacts arranged concentrically around the internal conductor with clearance with respect to each other and interconnected to conduct electricity at least at one point

overcame the prior arts of Althaus, Kluitmans, and Amano since none of the cited prior art discloses such coaxial lines, as claimed. Furthermore, Examiner has no motivation to combine the combination of prior arts that would reasonably reads upon applicant's invention as a whole. Therefore, independent claims 1 and 17 are allowable.

This application is in condition for allowance except for the presence of claim 8, 9, and 15 directed to species non-elected without traverse. Accordingly, claims 8, 9, and 15 have been cancelled.

Therefore, claims, 2-6, 10-13, 16, 18, and 20 are allowed by virtue of dependency.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erin D. Chiem whose telephone number is (571) 272-3102. The examiner can normally be reached on Monday - Thursday 9AM - 5PM.
